

ALL IRON TO BE FREE OF CRITTER FENCING

We are NOT able to paint the iron fencing when there is critter fencing is attached. If painted, it will do long term damage to the Iron Fencing. The fencing can be reinstalled 24 hours after it has been painted . Titan Painting will not be removing any of the fencing so it is important to have the Iron ready when it is time for painting.

ALL IRON TO BE FREE OF PLANT MATERIAL

It is required to have at least 1 foot of clearance from any foliage that may be up against the fencing. Cactus and other plants must be trimmed back prior to painting.

ALL WOOD AREAS TO BE PAINTED

All patio furniture must be cleared away from the areas that are getting painted. If items are left out during the washing of the wood, they will get wet. If items are left out during painting, they will have to be covered to avoid overspray.

GARAGE DOOR PAINTING

Please make sure that all cars are out of the garage the days of painting. The first day will consist of washing and prepping. The second day will consist of the painting.
